General List of Plants for the Home, Conservatory, and Garden

Does the large planted acreage and the many rows of greenhouses, as viewed from the cock pit of your plane, awaken in you an interest to come down and look the place over closely—inside and out? If it does, our purpose has been fulfilled.

No catalogue or description can satisfactorily impart to those really interested in plants, either for selling or home culture, the many varieties and beauty of the great selection of rare plants that have interested our visitors for the past fifty years and have brought them back again and again to enjoy a few hours in one of America's Greatest and Most Interesting Nurseries.

Anticipating a renewed demand for many varieties of Greenhouse plants that have been out of the market for a number of years, we have added a large number of varieties to our collection. We are not attempting to give much descriptive matter, but are using a key to cover the general characteristics of the various types of plants.

Of particular interest today is our tropical garden with its many varieties of exotic plants grown under as near natural conditions as possible, bringing out their real characteristics of color and growth which is not always possible in small pots.

WHEN ORDERING

Of those plants that are not priced we have only a limited number or stock plants and would ask you to kindly write for sizes and prices. In the Greenhouse section we have endeavored to show pot sizes and heights where possible, but due to the fact that this class of plants is always, (except at their rest period) in the growing state,

it is always well, when ordering, to signify a range of sizes so that we can fill the orders from stock in either larger or smaller pots.

PRICE LISTS

In addition to this catalogue, we also issue special lists for Christmas, Easter and Mother's Day, as well as monthly lists of plants in season, copies mailed on request.

AN INVITATION

You are always welcome to come out and should feel under no obligation to us for doing so. We believe that a knowledge of the many plants available and their culture will suggest to our visitors many changes for their solariums and conservatories and to our retailers a means of increasing sales by the introduction of new items.

AZALEA indica. C. fl.

We grow large quantities of Azaleas for Christmas and Easter, and devote about 50,000 feet of glass to this culture alone. Sizes and prices for Christmas varieties will appear in our Christmas list and same applies for Easter and Mother's Day. Below is a list of the leading varieties that we grow:

Chas. Encke. (8A133) Light salmon pink.
Ernest Thiers. (8A104) Crimson.
Empress of India. (8A109) Semi-double, salmon.
Fred Sanders. (8A106) Dark rose.
Hexe. (8A134) (Firefly) Fringed, single crimson.
Hinodegiri. (8A132) Cherry red.
Jean Peeters. (8A116) Double brilliant red.
Jean Haerens. (8A114) Rosy carmine, very double.
Memoire de Louis Van Houtte. (8A108) Double, carmine.
Mme. Petrick. (8A101) Double, light rose.
Mme. Van der Cruyssen. (8A130) Double, deep rose.
Mons. Morreaux. (8A107) Large, salmon pink, semi-double.
Prof. Wolters. (8A103) Large, single pink dark center and fringed edges.
Romain de Smet. (8A110) Fringed, pink striped white.
Simon Mardner. (8A105) Large, light pink flowers.
Temperance. (8A115) Large, mauve, semi-double.
Vervaeana. (8A112) Large, double, rose salmon with white margin.
Vervaeana, alba. (8A113) Large, double white.
RHODODENDRON Pink Pearl. Of all the forcing varieties of Rhododendrons Pink Pearl is considered the best, and can be supplied in pots and tubs from \$7.50 to \$20.00.

EGONIA argenteo guttata. C. fol. Spotted leaves, 70c to \$2.00.

bunchii. fol., 70c to \$2.00.
fuchsoides. Tiny foliage, 30c to \$2.00.
glaucocephala scandens. For hanging baskets, \$1.00 to \$2.00.
goegoensis. Red and green waxy foliage, \$1.50 to \$3.00.
haageana. fol., 70c to \$2.00.

CACTUS AND SUCCULENTS

The varied uses of both Succulents and Cactus are increasing every year. Besides those listed below, we have many other varieties which can be quoted on upon request. Many of these are used in so-called Japanese Gardens and in made up dishes, and for this reason we have thrown the two classes together. We do not list the gardens or made up dishes as they come in so many styles and shapes that space does not permit a separate listing, but they range in price from \$2.00 to \$30.00. To make a selection we would suggest a visit to our Greenhouses to pick out the type that suits your fancy.

GAVE americana marginata variegata
(5A302) \$1.00 to \$1.50

ZINNIA elegans. fl. pl.

In the arrangement of a small greenhouse, it is always advisable to have a few orchids which can very easily be grown in a house of this kind. In as much as Orchids have very unattractive foliage, it is always best for the inbetween seasons, to have a collection of highly colored tropical plants to add to the attractiveness of your conservatory. Let us submit suggestions.

GENERAL LIST OF NURSERY STOCK

NURSERY STOCK

Realizing the difficulties of the average person to make a selection of plants for his garden, we have what we call a "Nursery Shop." This is a lath enclosed structure covering about a quarter of an acre, into which, as soon as the frost is out of the ground, we bring together plants from the field, placing them in bins with the roots protected with peat moss and ready to be lifted out of the bin and planted in the garden.

We have now operated this for two years and find that the stock that is handled in this manner gives far better satisfaction to the buyer than stock that is dug directly from the field.

And, of course, you can well realize that it is simpler and easier to make a selection out of a quarter of an acre than to walk over 100 acres.

HOW TO GET TO THE NURSERY

BY AUTOMOBILE

Due to the fact that Wallington has no Post Office Address, we have always used Rutherford as the location of our Nursery. The nursery, however, is in the Borough of Wallington, located on Paterson Avenue between East Rutherford and Passaic.

Our suggestion for those coming from New York would be to follow road signs leading to Rutherford and East Rutherford.

To get to the Jersey side, use the following means, depending upon your location:

From Uptown New York and Westchester:

George Washington Bridge
Dyckman Street Ferry
125th Street Ferry

From Midtown:

42nd Street Ferry
23rd Street Electric Ferry

Downtown:

Holland Tunnel
Chambers Street Ferry

Those traveling from the direction of Morristown, Montclair, and the Oranges should follow the sign posts to Passaic and then take Paterson Avenue from Passaic to East Rutherford.

From the direction of Tuxedo it is best to take the new highway, following the Holland Tunnel signs to East Rutherford. Turn right on Paterson Avenue and it will take you past the Nursery which is located on the right hand side.

BY BUS

Either the Inter City Transit Line or the Public Service Line marked "Rutherford" at terminals at 44th Street and Broadway (Hotel Astor), 36th Street and Sixth Avenue, 33rd Street and Seventh Avenue (Nevis Terminal), and 23rd Street and Eighth Avenue (Cornish Arms). These buses do not pass the Nursery. Get off in East Rutherford, corner Hackensack Street and Paterson Plank Road, take bus or trolley going toward Passaic or Paterson, riding about a mile to directly in front of the nursery. Otherwise, continue on the New York bus to Rutherford Station and take a taxi from there.

BY TRAIN

Take the Hudson and Manhattan Tube to Erie Station in Jersey City; the first stop on the Main Line is Rutherford; taxi from Rutherford.

CONDITIONS OF SALE

All prices are understood F.O.B. our Nursery. Many exceptions are made to this rule, however, depending upon the value of the order and the point of delivery. We have a fleet of trucks making deliveries in the metropolitan area and these trucks are scheduled to cover certain points each day and if delivery can be scheduled to fit in, we deliver free.

Terms—Where satisfactory credit has been established, bills are payable thirty days from date of shipment.

Goods desired C.O.D. must be accompanied by a remittance equal to 25% of the total value of order to guarantee acceptance.

All goods are offered subject to failures, shortages, or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to change prices without notice.

Special Selection—Plant materials especially selected at the nursery will be sold at prices commensurate with the value of the specimens chosen, irrespective of the listed prices.

Claims—No claims will be entertained unless made within two days after receipt of goods.

Non-Warranty—Julius Roehrs Co. gives no warranty, expressed or implied, as to description, quality, productiveness, or any other matter, of any Trees, or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.
